

# CRIMAR INDUSTRIAL

## SHIJIAZHUANG BEMAN COMMERCIAL CO. LTD.

Sales offices: USA, Africa, Brazil, Chile, China, Peru

Mobile equipment

Design, fabrication, expediting, quality control, and shipping to customers around the world

Filter presses & plates

Hydrocyclones

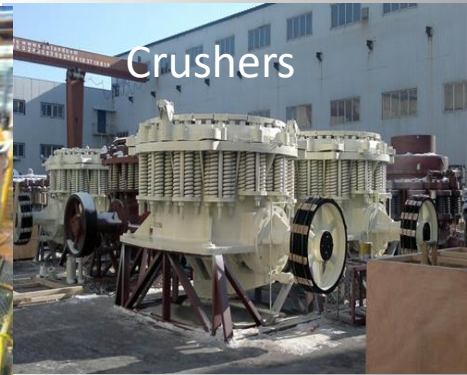

FRP tanks and process vessels

Gears and mill heads

Crushers

Dryers/steel fabrication

Biofilters

Pressure vessels

Duct Systems

# *CRIMAR INDUSTRIAL*

## *SHIJIAZHUANG BEMAN COMMERCIAL CO. LTD.*

**For over 25 years we have been supplying industrial equipment to the mining, water treatment, petroleum, and other industries. Our focus is on quality first, on-time delivery, then price. When appropriate we employ internationally known third party inspection companies to certify that the materials, production procedures and final products meet the specifications of our customers.**

### **We offer:**

**Fiberglass tanks, pipes, process equipment  
Cast and forged parts (steel, aluminum, alloys)  
Mobile equipment  
Filter presses and plates  
Vertical presses, ceramic filters, belt filters  
Crushers, mills, conveyors, tunneling systems  
ASME "U" certified pressure vessels  
Steel tanks, plate work, process equipment  
Dryers, bag houses, thickeners, clarifiers  
Agitators, mixers  
Overhead cranes  
Hydrocyclones**

**\*\*Wear parts for all of the above\*\*  
and other high quality products as required by our customers**

## *Shijiazhuang Beman Commercial Co. Ltd.*

A majority USA owned corporation located in Shijiazhuang, Hebei  
China that provides the following:

- 1) Local support for sourcing and quality control
- 2) A legal entity in China that has full authority under Chinese law to sign and enforce contracts
- 3) Import and export licenses to handle all arrangements related to shipping and receiving local and international shipments
- 4) Local invoicing, certificates of origin, and administrative functions
- 5) Bilingual staff to ensure that all documentation is clearly understandable

*Sales offices: USA, Canada, Chile, China, Colombia, Mexico. Peru, RSA*

### *OUR TEAM*

# INDUSTRIAL FIBERGLASS

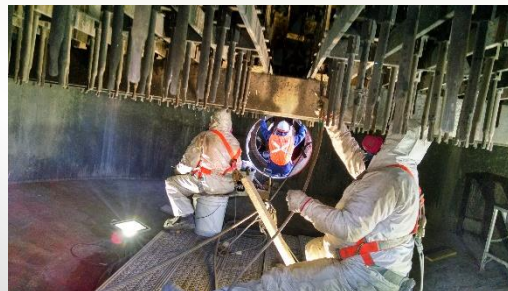

Pump barges & walkways

18.4 mt. dia. clarifier cover

Acid wash columns

Onsite inspection and  
Installation supervision

125 tanks for a zinc recovery plant

350,000 gallon field assembled

Oblated tanks shipped to site

# INDUSTRIAL FIBERGLASS

Settler tanks Areva/Technip

Belt guards FLSmidth

FRP reaction wells WesTech/GE

Humidifying tower cover Glencore

Isolation damper Glencore

FRP dampers for Arcelor Mittal

# INDUSTRIAL FIBERGLASS

Piping systems SNC Lavalin

Full vacuum receivers WesTech/Jacobs

150 ft dia. hot brine thickener cover  
New Mexico Potash

Quench towers  
IMC Kalium

Onsite fabrication of  
quench towers and  
process vessels  
Hatch/QSLIC

Automated pipe &  
tank winders

# STEEL PRESSURE VESSELS

Crimar provides ASME "U" certified pressure vessels: filters, heat exchangers, ... for projects around the world. All vessels are certified by third party inspectors.

Stainless steel heat exchanger coils

Steam boiler

Dust filter

SPX/Praxair

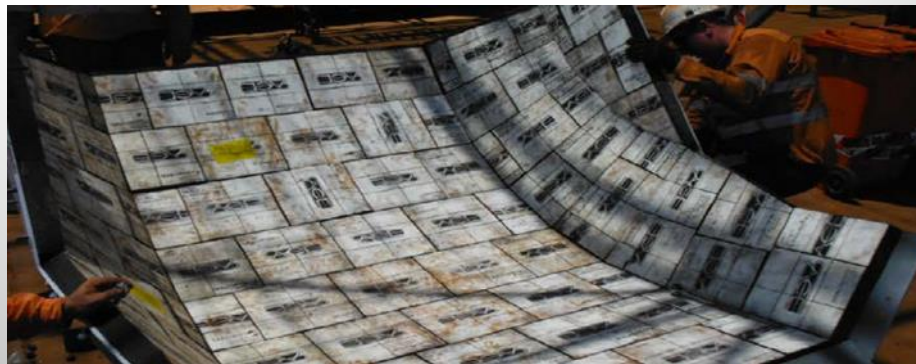

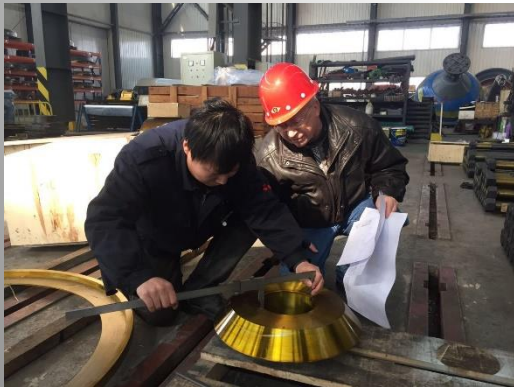

# CRUSHING AND MILLING EQUIPMENT

Crimar/SBCCO is a supplier of heavy duty crushers and milling equipment for the mining industry based on state-of-the-art technology and over 20 years of experience building equipment for international mining projects. We have in-house expertise in crushing and milling applications and provide equipment to some of the largest mining operations in the world.

Ceramic/rubber chute and hopper liners

# CRUSHING & MILLING EQUIPMENT

Crimar ships equipment to the  
mining industry  
throughout the world

# REPLACEMENT PARTS FOR MILLS

Parts for CODELCO mills,  
Chuquicamata, Salvador, Andina

# MOBILE EQUIPMENT

SANY is the third largest producer of mobile equipment in the world with local service centers located near to all major customers.

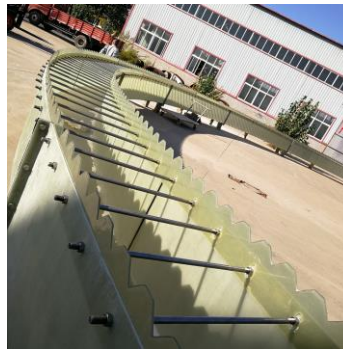

# LIQUID/SOLIDS SEPARATION

Crimar regularly supplies thickeners, feedwells, drop out boxes, launder systems and Related equipment for mining and water treatment systems

75 ft steel thickener cover - Ovivo

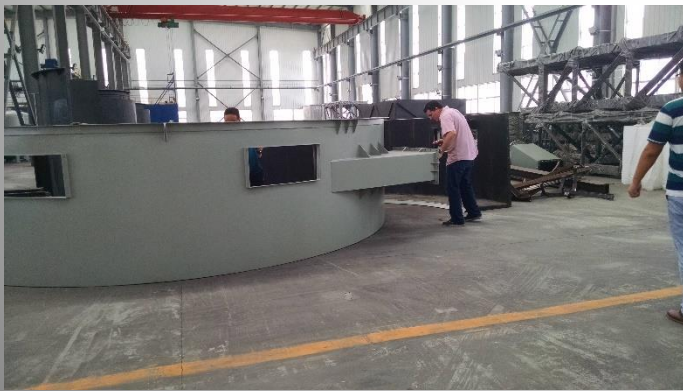

Clarifier internals

Feedwells

Thickener internals – Paterson Cooke

# CASTINGS & FORGINGS

New fabrication as well as replacement parts out of  
Carbon and stainless steel, aluminum and alloys

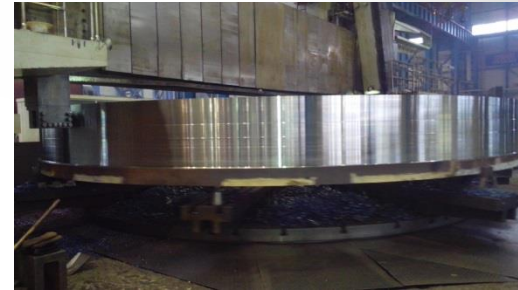

From small precision parts to large industrial products

# CASTINGS & FORGINGS

Rings for petroleum industry

Gears: cast, heat treated, lathed and machined

Pinions: Forged, heat treated and machined

Pumps: cast, lathed and machined

Roll locking plates (drilling pipe)

Forged and machined gears

Forging shackles and large chains

# FILTER PRESSES

Crimar represents one of the largest filter press fabricators in the world!

Installed annual capacity for 6,000 presses in a 600,000 m<sup>2</sup> plant near Beijing

# HYDROCYCLONES

Crimar works with a high quality fabricator established in 1989 and that now produces over 15,000 cyclones annually as well as other solid liquid separation equipment. The company is internationally known for its high quality and timely delivery.

# HYDROCYCLONES

Solid/liquid separation equipment

# PLATEWORK, STEEL STORAGE & PROCESS VESSELS

Crimar offers steel vessels and platework made in China and Mexico used for mines, power plants, refineries, food processing plants, cement plants, and a large variety of other facilities requiring high quality workmanship and materials

# PLATEWORK, STEEL STORAGE & PROCESS VESSELS

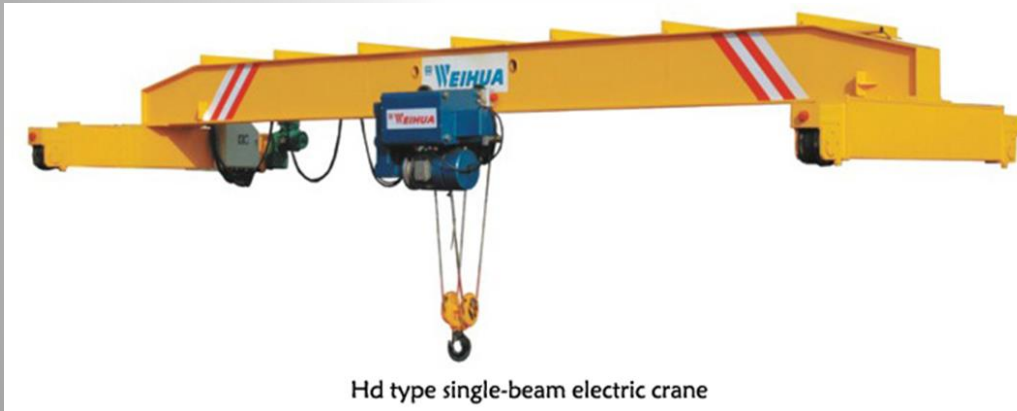

# CHAIN, ROPE, CABLE

Our supplier in Hebei, China is a privately owned company that employs over 6,000 people in its 1,500,000 square meter facilities (16 million sq.ft.) located on 150 hectares (370 acres) of land.

# CRANES & HOISTS

Our fabricator has 20 year of experience serving industries such as machinery manufacturing, metallurgy, petrochemical industry, mining, energy and transportation, port logistics, automobile manufacturing, shipbuilding and other fields

# PIPING SYSTEMS

We provide spooled as well as straight fiberglass and steel pipe and fittings for customer projects:

Rubber lined steel

Stainless steel pipe

Duplex steel

Fiberglass piping for SXEW plant

Stainless steel valves and flanges

Teflon lined valves

# MISCELLANEOUS

We regularly source and supply other products as required by our clients:

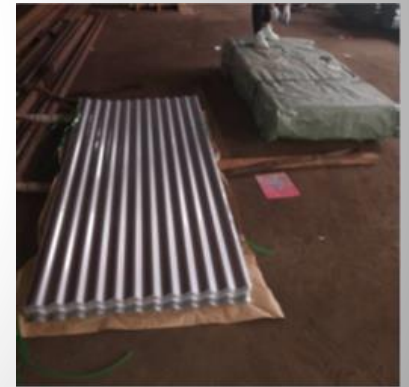

Stainless steel cable trays

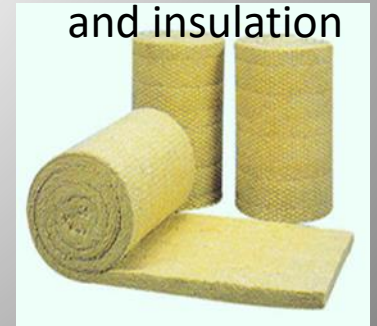

ABS edge strips for copper refinery

Steel and fiberglass grating

Stainless cladding  
and insulation

# CRIMAR INDUSTRIAL / SBCCO

Tucson, Arizona - Shijiazhuang, China - Santiago, Chile - Lima, Peru - Toronto, Canada - Cape Town, RSA

[www.crimar.com](http://www.crimar.com)

[www.sbcco-china.com](http://www.sbcco-china.com)

Crimar Industrial regularly provides industrial equipment to a variety of international customers in the mining, water treatment, chemical and petroleum industries: M3 Engineering, FLSmidth, Glencore, Phelps Dodge, Jacobs Engineering, ASARCO, Intrepid Potash, Siemens/US Filter, Newmont, CODELCO, SPX, Hatch Engineering and many others.

The following is a list of some current orders in process as of September 2022:

<b>Customer</b>	<b>Product</b>
FMI/Hatch Engineering	(79) FRP tanks for PTMR project in Indonesia
FLSmidth	(2) 18-meter Ø FRP thickener covers for Sabina Gold project
FLSmidth	(1) 6-meter Ø FRP thickener for FMI PTMR Indonesia
FLSmidth	(1) 13'6" x 12' long FRP filter drum cover for Italy
Biorem	(4) 6' to 12' Ø FRP scrubbers for Florida
KB Engineering	(2) FRP 3' Ø x 36' high absorber towers for Washington state
Elko Mining	(2) 10'6" FRP mix tanks for Mineral Park Arizona
Glencore – PASAR	Multiple stainless and rubber lined piping systems
CODELCO	(2) 10' Ø x 14' mill shells
CODELCO	(5) Mill discharge trunnions
CODELCO	(3) 13'6" Ø x 18' Marcy mill liners
CODELCO	(8) Mill feed cones
CODELCO	Ceramic chute and hopper liners
